OUR SUPPLIERS

nexeo[®]
plastics

The personal care industry encompasses a wide array of products designed to enhance personal hygiene and beauty, including skincare, haircare, cosmetics, and more. The sector is driven by consumer demand for effective, safe, and sustainable products.

At Nexeo Plastics, we are convinced that there can be no responsible packaging without a responsible company that is trustworthy, ethical, transparent, and reliable. That's why as a global distributor, we pride ourselves on putting emphasis not just on the materials we distribute but on our people, our communities, the planet, and on ensuring our customers that we are a partner for long-term relationships.

From Cosmetics to Make-Up

Nexeo Plastics stands as a leading distributor, offering not only top-grade materials for personal care product packaging but also comprehensive technical support and regulatory guidance.

In the path to personal care development, **sustainability is a key factor to consider**. At Nexeo Plastics, we believe sustainability is an essential element of the **future of all processes and products**, and we are committed to providing sustainable solutions for our customers in the plastics industry. From cosmetics to make-up, our materials for personal care applications include sustainable solutions from the best-in-class suppliers that offer a range of benefits, including reduced environmental impact and improved efficiency.

To ensure these products meet high safety and quality standards, regulatory bodies worldwide impose strict legislation and various global standards regarding ingredients, labeling, and product safety assessments. Our Regulatory Department is deeply focused on following European topics like the BPA ban proposal in food contact and the ban of styrenic polymers in packaging.

At Nexeo Plastics, we understand the importance of the personal care market and the challenges and opportunities it presents for industries such as plastics.

With our advanced technical solutions and expert team, **we are committed to helping our customers find the ideal material solutions for their personal care applications, providing guidance on material selection, processing, and performance optimization**. Contact us today to learn more about how we can assist you with your personal care challenges.

PERSONAL CARE

COSMETICS

Application	Cosmetic Jar Lipstick cover
Technical properties	Transparent with high gloss Good scratch resistance Best in class chemical resistance Easy processing Food contact
Material	SAN
Product	Tyrl 905
Supplier	Trinseo

Application	Soft Grip part for Cosmetic Devices Anti age dropper
Technical properties	Wide hardness range available Shore A 40-90 Light, natural color for superior colorability Resistant to household chemicals and cosmetics Excellent adhesion to polyolefins Soft touch Food contact
Material	TPS
Product	Monprene RG10140
Supplier	Teknor Apex

Application	Perfume closer cap
Technical properties	Glossy Good aesthetics Excellent stiffness Lightness Easy Processing Food Contact
Material	PP
Product	BG055AI
Supplier	Borealis

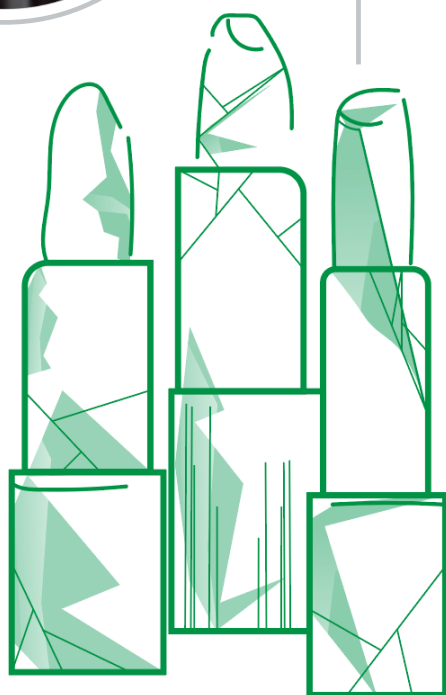

Application	Cosmetic packaging
Technical properties	Transparency Stiff Easy processing High Flow Mass balance
Material	PS
Product	Styron 678E
Supplier	Trinseo

SOME OF OUR RECOMMENDED PRODUCTS*

MAKE UP

Application	Cosmetic pump
Technical properties	Limited moisture uptake Food contact quality Better dimensional stable Good colorability Good surface appearance/gloss Injection molding Medium viscosity
Material	PBT
Product	Arnite T06 202
Supplier	Envalior**

Application	Make up foundation powder
Technical properties	Glossy Good aesthetics Lightness Easy processing Food contact Platable
Material	ABS
Product	710
Supplier	Kumho

Application	Valve stem
Technical properties	Food contact High stiffness Good aesthetics Complex parts High ductility GF filled grades available
Material	PA66
Product	NAT DB Nevifood
Supplier	Nevicolor

SUSTAINABLE SOLUTIONS

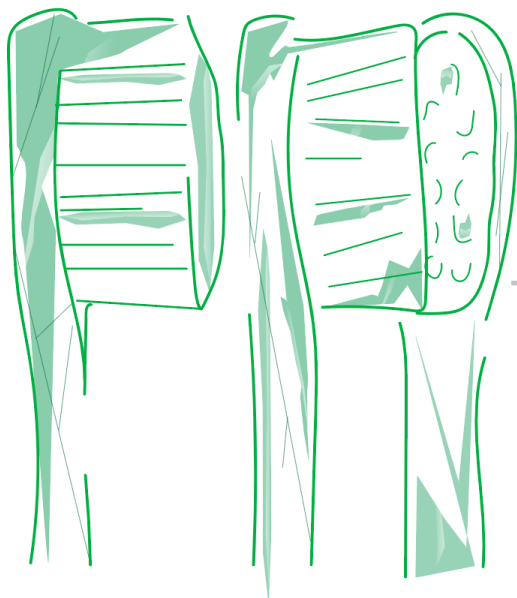

PERSONAL CARE

Application	Dispenser packaging
Technical properties	ISCC mass balance certified Lot to Lot consistency Low VOC High scratch and resistance Good aesthetics
Material	ABS
Product	Magnum Bio 8391
Supplier	Trinseo

Application	Toothbrush
Technical properties	PP filled with 40% wood fiber Food contact approved Can be colored using standard MB Available in Mass Balance Recyclable Excellent stiffness and impact
Material	WPC
Product	Pure L40
Supplier	Woodcomposite

Application	Mascara brush
Technical properties	Bio based Food contact Excellent chemical resistance Unique combination of Flexibility Shore D 46 Wide range of hardness available Soft touch
Material	TPC
Product	Arnitel ECO L460
Supplier	Envalior**

Application	Caps and closure
Technical properties	BNT technology Random copolymer based Excellent organoleptic properties Improved gloss Excellent transparency Low blooming Good stiffness and impact balance Mass balance available
Material	PP
Product	BorPure RF777MO
Supplier	Borealis

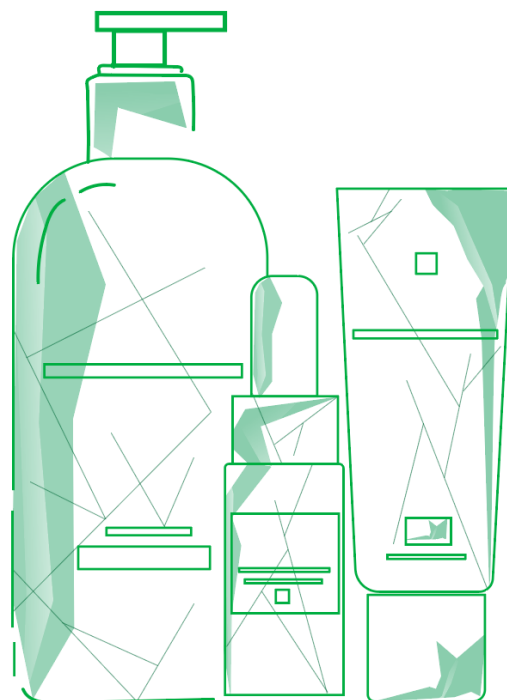

**Not available in DACH and CEE

SOME OF OUR RECOMMENDED PRODUCTS*

Application	Cosmetic packaging
Technical properties	Excellent stiffness Impact balance Good processing properties Great appearance Injection molding 100% PCR product Natural FDA approved
Material	PP
Product	CB N1H1A FANC002
Supplier	Kingfa

Application	Soft touch additive
Technical properties	Better mold filling Less extruder torque Internal lubrication Easy mold release Faster Throughput Better lubricity and slip Lower coefficient of friction
Material	Siloxane masterbatch
Product	MB50-002
Supplier	Dupont

Application	Lipstick housing
Technical properties	10% Coffee grounds Injection moulding Food contact approved Easy processing
Material	HDPE
Product	STRONG B2 NC
Supplier	Coffeefrom
